

Customer Support Knowledge Base — Billing & Payments

Synthetic support articles covering payment methods, invoices, subscriptions, renewals, refunds, taxes, credits, and billing troubleshooting.

Article count: 38

KB-001 — Payment method basics

Common question: What payment methods are supported?

Resolution: Available payment methods depend on region, currency, plan, and checkout configuration. The payment screen shows the methods currently available for the account.

Recommended steps:

1. Use a payment method issued in an eligible region and keep billing details current.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-002 — Adding a payment card

Common question: How do I add a new card?

Resolution: Open Billing or Payment Methods, choose Add Payment Method, enter the requested details, and complete any verification.

Recommended steps:

1. Use the billing address associated with the card when the payment form requests it.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-003 — Updating an expired card

Common question: What should I do when my card expires?

Resolution: Replace the expired card in Payment Methods before the next renewal. If automatic card updating is supported by the issuer, the account may update automatically.

Recommended steps:

1. Check the next invoice date after saving the new card.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-004 — Card declined

Common question: Why was my card declined?

Resolution: A decline can be caused by insufficient funds, issuer restrictions, incorrect billing details, fraud controls, or an unsupported transaction type.

Recommended steps:

1. Confirm card details, billing address, available funds, and whether the issuer is blocking the transaction.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-005 — Insufficient funds

Common question: Why did payment fail because of insufficient funds?

Resolution: The card issuer declined the charge because the available balance or credit was insufficient.

Recommended steps:

1. Add funds or use another eligible payment method, then retry the payment.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-006 — Billing address mismatch

Common question: Why does my card fail due to billing information?

Resolution: The billing address entered at checkout may not match the address held by the card issuer.

Recommended steps:

1. Enter the address exactly as registered with the card issuer, including postal code.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-007 — Duplicate charge

Common question: I appear to have been charged twice.

Resolution: Two entries can represent a completed charge and a temporary authorization, or two separate successful charges.

Recommended steps:

1. Compare the transaction dates, amounts, and invoice numbers before assuming a duplicate charge.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-008 — Pending card authorization

Common question: Why is a charge showing as pending?

Resolution: A pending authorization means the payment provider has reserved or is checking funds but the transaction may not yet be finalized.

Recommended steps:

1. Allow the payment provider time to complete or release the authorization before retrying.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-009 — Unexpected renewal

Common question: Why was I charged for a renewal?

Resolution: A recurring subscription renews automatically unless canceled before the applicable renewal deadline.

Recommended steps:

1. Check the subscription status and renewal date in Billing.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-010 — Canceling a subscription

Common question: How do I cancel my subscription?

Resolution: Open Billing, choose the active subscription, select Cancel, and confirm the cancellation. The screen should show the effective date.

Recommended steps:

1. Save the cancellation confirmation for your records.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-011 — Cancellation after renewal

Common question: Can I cancel after a renewal charge?

Resolution: Cancellation normally stops future renewals but does not automatically reverse a completed renewal charge.

Recommended steps:

1. Review the applicable refund policy and submit a refund request if eligible.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-012 — Refund eligibility

Common question: When can a payment be refunded?

Resolution: Refund eligibility depends on the product, transaction type, timing, and applicable policy.

Recommended steps:

1. Provide the invoice or transaction reference when requesting a refund.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-013 — Refund processing time

Common question: How long does a refund take?

Resolution: Once approved, the refund is sent back through the original payment method. The time to appear depends on the payment provider.

Recommended steps:

1. Check the original card or payment account rather than expecting a separate deposit.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-014 — Refund not received

Common question: My refund was approved but I cannot see it.

Resolution: Confirm the refund approval date and reference, then check the original payment method and recent statements.

Recommended steps:

1. If the provider's stated processing window has passed, contact support with the refund reference.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-015 — Invoice download

Common question: Where can I download an invoice?

Resolution: Open Billing or Invoice History and select the relevant transaction to view or download the invoice.

Recommended steps:

1. Use the invoice date or transaction reference to find the correct document.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-016 — Invoice address

Common question: How do I change the address shown on future invoices?

Resolution: Update billing or organization information before the next invoice is generated.

Recommended steps:

1. Past invoices may remain unchanged because they represent historical transactions.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-017 — Tax information

Common question: How is tax calculated?

Resolution: Applicable taxes can depend on billing location, customer type, and local tax rules.

Recommended steps:

1. Enter accurate billing and tax information before purchase so the system can apply the appropriate treatment.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-018 — Tax exemption

Common question: How do I submit tax-exempt information?

Resolution: If tax exemption is supported, provide the requested exemption documentation through the billing workflow.

Recommended steps:

1. Approval may be required before tax-exempt treatment is applied to future transactions.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-019 — Currency mismatch

Common question: Why was I charged in a different currency?

Resolution: The checkout or billing configuration may use a supported settlement currency rather than the currency you expected.

Recommended steps:

1. Review the displayed currency before completing payment and check any conversion fees charged by the payment provider.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-020 — Foreign transaction fee

Common question: Why did my bank charge an extra fee?

Resolution: Your bank or card issuer may apply foreign transaction or currency-conversion fees independently of the service charge.

Recommended steps:

1. Contact the card issuer for details about bank-imposed fees.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-021 — Payment verification

Common question: Why am I asked to verify my card?

Resolution: Additional verification can be required to reduce fraud and comply with payment-provider security rules.

Recommended steps:

1. Complete the verification in the secure payment flow; do not send verification codes to support.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-022 — 3-D Secure failure

Common question: Why does the bank verification screen fail?

Resolution: The issuing bank's authentication page may fail because of browser restrictions, expired sessions, or issuer-side issues.

Recommended steps:

1. Retry in a standard browser and contact the card issuer if its authentication service is unavailable.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-023 — Bank transfer payment

Common question: Can I pay by bank transfer?

Resolution: Bank transfer availability depends on region, account type, and billing configuration.

Recommended steps:

1. Use the bank details and payment reference supplied in the official invoice or checkout flow.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-024 — Bank transfer pending

Common question: Why is my bank transfer not reflected yet?

Resolution: Bank transfers can take longer to reconcile than card payments, especially across banks or weekends.

Recommended steps:

1. Keep the transfer reference and proof of payment until the transaction is matched.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-025 — Incorrect payment amount

Common question: I was charged an amount I did not expect.

Resolution: Check the invoice, plan, quantity, taxes, discounts, credits, and usage charges associated with the transaction.

Recommended steps:

1. Compare the charge against the invoice line items before requesting a correction.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-026 — Discount not applied

Common question: Why was my discount missing?

Resolution: Promotions can have eligibility rules, expiration dates, plan restrictions, or usage limits.

Recommended steps:

1. Review the promotion terms and confirm the code was entered before payment.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-027 — Coupon expired

Common question: Why does my coupon no longer work?

Resolution: Coupons can expire or become invalid after a defined redemption period or number of uses.

Recommended steps:

1. Use a currently valid promotion or contact support only if the coupon was expected to remain active.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-028 — Credits applied incorrectly

Common question: Why did my account credit not appear?

Resolution: Credits may apply only to eligible charges or future invoices and may not cover taxes or excluded items.

Recommended steps:

1. Check the credit balance and the invoice line items for the application rules.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-029 — Chargeback or dispute

Common question: What happens if I dispute a charge with my bank?

Resolution: A bank dispute can temporarily affect payment status and may trigger a review of the account transaction.

Recommended steps:

1. Contact support if the dispute was opened accidentally and provide the transaction reference.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-030 — Payment method removed

Common question: Why did my saved payment method disappear?

Resolution: A payment method may be removed after expiration, account changes, provider updates, or a user-initiated deletion.

Recommended steps:

1. Add a current eligible payment method and verify the next billing date.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-031 — Billing contact change

Common question: How do I change the billing contact?

Resolution: Update the billing contact in organization or account settings if you have billing permissions.

Recommended steps:

1. If the field is administrator-controlled, ask the organization owner to make the change.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-032 — Subscription plan change

Common question: Can I upgrade or downgrade immediately?

Resolution: Plan changes depend on the subscription model. Some changes take effect immediately with a prorated charge or credit; others begin at the next renewal.

Recommended steps:

1. Review the confirmation screen for the effective date and price impact.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-033 — Proration

Common question: What is a prorated charge?

Resolution: Proration adjusts the amount charged or credited when a subscription changes partway through a billing period.

Recommended steps:

1. Check the invoice for the old-plan credit and new-plan charge.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-034 — Annual versus monthly billing

Common question: What is the difference between annual and monthly billing?

Resolution: Annual billing typically covers a longer commitment in one billing cycle, while monthly billing renews each month.

Recommended steps:

1. Choose the cycle based on cash-flow needs and the expected duration of use.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-035 — Invoice missing

Common question: Why is an invoice not available?

Resolution: The transaction may still be processing, the account may not have billing permissions, or the invoice may be generated after payment completion.

Recommended steps:

1. Check again after the transaction settles and verify that you are viewing the correct organization.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-036 — Billing history access

Common question: Who can view billing history?

Resolution: Billing history is generally available to account owners or users with appropriate billing permissions.

Recommended steps:

1. Ask an organization administrator for access if the billing section is hidden.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-037 — Failed automatic renewal

Common question: Why did automatic renewal fail?

Resolution: The renewal may fail because the payment method expired, was declined, or no longer meets billing requirements.

Recommended steps:

1. Update the payment method and retry the outstanding payment before service access is affected.

Escalation: Escalate to support if the issue persists after the recommended steps.

KB-038 — Invoice adjustment request

Common question: How do I report an invoice error?

Resolution: Contact billing support with the invoice number, affected line item, and a concise description of the discrepancy.

Recommended steps:

1. Do not send full card numbers or authentication secrets.

Escalation: Escalate to support if the issue persists after the recommended steps.
